

DIABETES RESEARCH DAY 2010

February, 17th

Belfragesalen, BMC, Lund

Programme:

12.00 Registration, Lunch

13.00 Welcome

13.15 **Fiona Gribble, Cambridge University**

"Molecular physiology of GLP-1 releasing L-cells"

14.15 **Marloes Dekker, Lund University**

"DNA methylation and the pathogenesis of type 2 diabetes"

14.45 **PhD-student speech of the year 1, Anna Zetterqvist**

"Inhibition of Nuclear Factor of Activated T-cells (NFAT) reduces diabetes-induced atherosclerosis"

15.00 Coffee

15.30 Announcement of awardees for grants within DPLU

15.45 **The DPLU/LUDC Prize to a Nordic Diabetes Scientist:**

Anders Tengholm, Uppsala University

"Second messenger interplay in beta-cell stimulus-secretion coupling"

16.45 **Harry Björkbacka, Lund University**

"Innate immunity in atherosclerosis"

17.15 **PhD-student speech of the year 2, Vini Nagaraj**

"Complement receptor C5aR is expressed in pancreatic islets and affects glucose-induced insulin secretion"

17.30 Concluding Remarks followed by buffet dinner

Belfragesalen, BMC D15, Klinikgatan 32, Lund University

Please notify Ulrika Blom-Nilsson (email: Ulrika.Blom-Nilsson@med.lu.se) before February, 10 if you want to participate. Please notify if you want to have lunch and/or buffet dinner and if you have special requirement.

Arranged by The Diabetes Programme at Lund University (DPLU) and Lund University Diabetes Centre (LUDC).

WELCOME!
